

# LOCAL ENERGY OBAN

A Local Energy Plan has been created using information and aspirations from the Oban community. A group of local people are taking the plan forward to implement the practical actions identified and address the priorities put forward.

## The Oban Energy Group

Do you believe in moving towards sustainable low carbon energy ?

Do you have some ideas how Oban could generate its own energy ?

Are you part of a local group who might be interested in getting involved ?

Do you have experience running community groups and willing to share that knowledge with others ?

Do you have IT skills and knowledge of promotion through social media ?

Can you think of some ways to encourage people to get involved and form a group?

Do you have love and respect for your local environment and its resources?

Do you know some exciting venues and ideas for meetings?

To express an interest in joining this group or to find out more information on Oban's Local Energy Plan please contact Katie on [katie@alienergy.org.uk](mailto:katie@alienergy.org.uk)

## Help us to shape Oban's Energy Future
